

Technical data	
Communication ports	- RJ45 LAN - RS232 - RS485 x2 - OneWire
Voltage output	12V (sounder)
Logging memory	16mln records
Power	230V AC
Operating conditions	-10°C .. 60°C Humidity : 0..75%
Storage conditions	Temperature: -20°C..60°C Humidity: 0..75%
Electromagnetic compatibility (EMC)	Resistance to standard PN-EN61000-6-2
Installation data	
External dimensions	Housing: 240x191x107mm (szer. wys. gł.)
Weight	1.0kg
Fixing	4 handles included
Degree of protection, housing	IP65, ABS

DESCRIPTION:

The Logginet UNI logging centre registers data from the sensors of the Logginet Standard and Logginet Clip systems. The collected data are transmitted via LAN or RS485 connection to the Loggisoft programme.
